Introduction

If you are reading this manual your company is created in the BOX NOW system and you are able to create new delivery requests, create customer returns, review pending and completed deliveries and perform similar actions related to cooperation with BOX NOW.

In this manual basic tasks done through the Partner portal are described.

For any additional questions feel free to contact your BOX NOW Key Account Manager.

Login to Partner portal

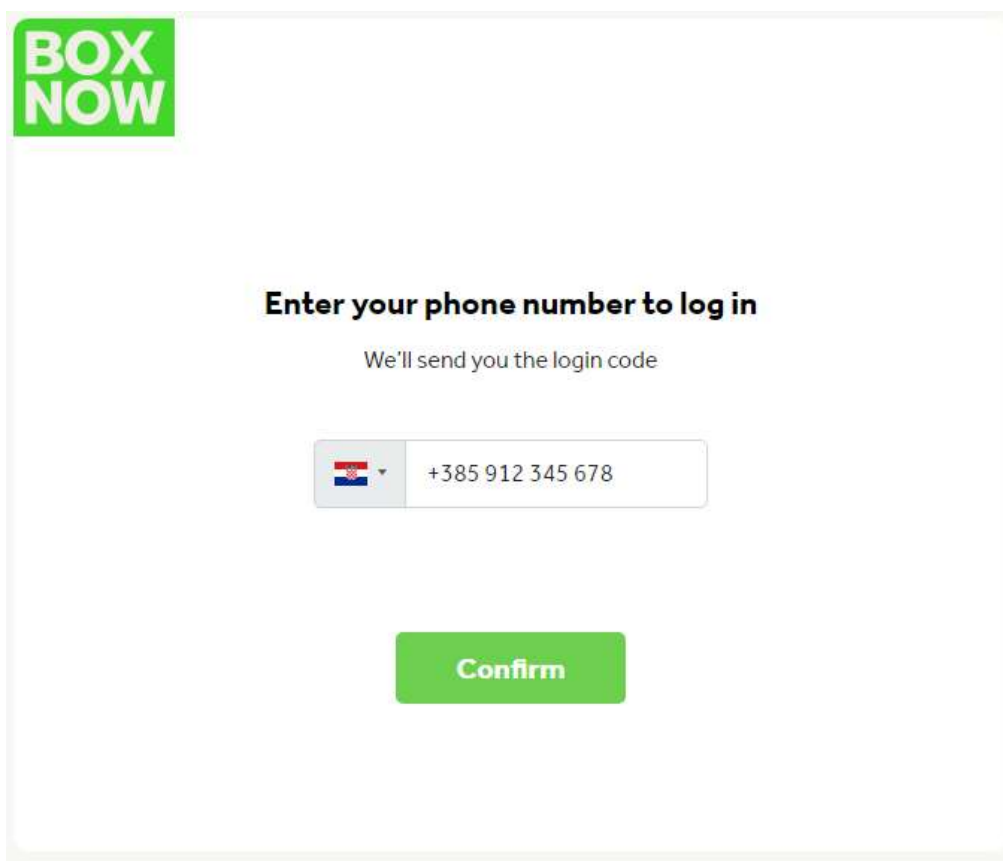

Partner portal is available on:

<https://partner.boxnow.hr/>

Login to Partner portal is available to enabled mobile phone number(s) by OTP (one time password).

Enabled mobile phone numbers are the ones you dedicated for this purpose in arrangement with your BOX NOW Key Account Manager (MAX 2 numbers).

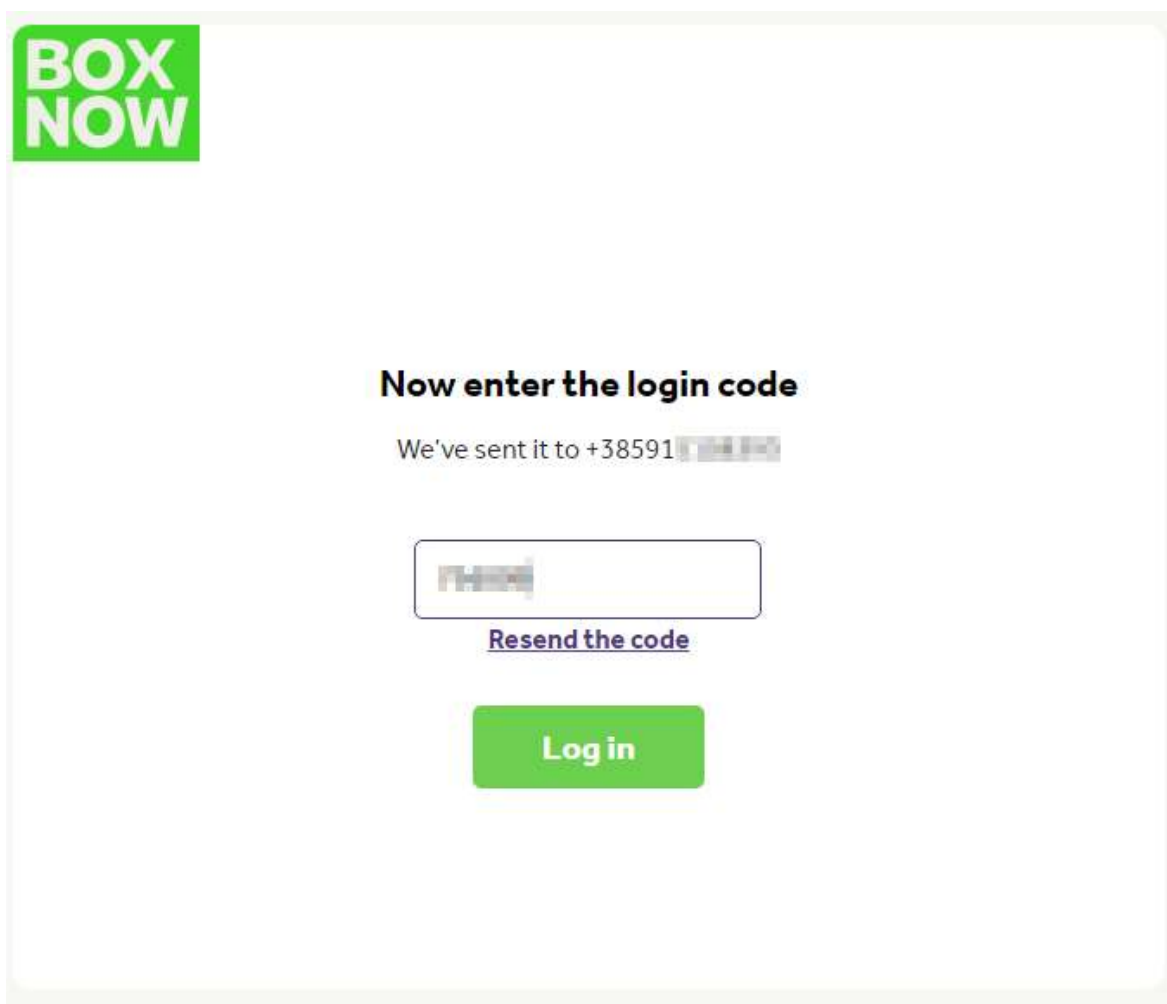

On the login page input the mobile number and click *Confirm*:

The image shows a screenshot of the BOX NOW login interface. In the top left corner, there is a green square logo with the text "BOX NOW" in white. The main heading in the center is "Enter your phone number to log in" in bold black text. Below this heading is a subtext "We'll send you the login code" in a smaller, lighter font. There is a form field for the phone number, which includes a dropdown menu for the country code (currently showing the flag of Croatia) and a text input field containing the number "+385 912 345 678". Below the form field is a green button with the text "Confirm" in white.

An SMS with the OTP will arrive to the mobile shortly:

Molimo potvrdi svoju prijavu u sustav putem sljedećeg jednokratnog koda [XXXXXX](#).
Tvoj BoxNow tim.

Input the OTP to the portal and click *Log in*

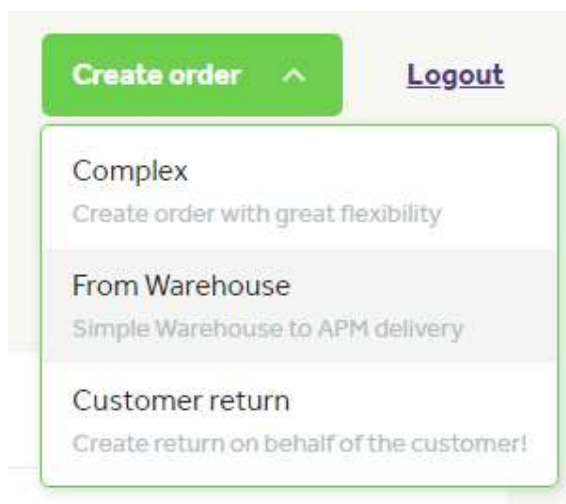

The screenshot shows the BOX NOW login interface. In the top left corner is the BOX NOW logo. The main heading is "Now enter the login code". Below this, it says "We've sent it to +38591 XXX XXXX". There is a text input field containing "XXXXXX". Below the input field is a link that says "Resend the code". At the bottom is a green button with the text "Log in".

You are now logged in to the BOX NOW Partner portal.

Create delivery request

To create a request for delivery in the top right corner click:

Create order – From Warehouse

Under *Pick up* select the warehouse from where the parcel is going to be picket up:

* Pick up

A screenshot of a web form for 'Pick up'. At the top, there is a dropdown menu with the text 'loc_id: 1859, BoxNow Croatia IT picu...' and a downward arrow. Below this is a 'Warehouse' section with a list of three items: 'loc_id: 1859, BoxNow Croatia IT picku...' (highlighted in pink), 'loc_id: 1898, BoxNow Croatia IT picku...', and a third item partially visible. To the right of the list is a 'Location public identifier' field. Below the list is a 'Note' field. The background of the form is light green.

If your company has only one pickup location it will be selected by default.

The options are added to the system in arrangement with your BOX NOW Key Account Manager so if there are any changes to the pickup locations or you need to add some new ones please contact your BOX NOW Key Account Manager.

In the *Your customer's details* input the information of the parcel recipient:

Your customer's details

* Full name

Ivan Horvat

* Phone number

+385 912 345 678

* Email

ivan.horvat@mail.com

This is important as this information will be printed on the shipping label and the contact details will be used by the BOX NOW system to inform the customer that their parcel is delivered to the locker.

In the *Delivery address* field select the locker the parcel will be shipped to:

Delivery address

* APM number

loc_id: 1688, Rudeš - Zagi Centar, 10000

You can search and select by typing the locker ID or the locker location name.

Once you select the locker the details will be displayed:

* APM number

loc_id: 1688, Rudeš - Zagi Centar, 1... ▼

Zagrebačka cesta 194

Rudeš - Zagi Centar

Address

Zagrebačka cesta 194,
Zagreb, 10000, Croatia

Location ID

1688

Location public identifier

-

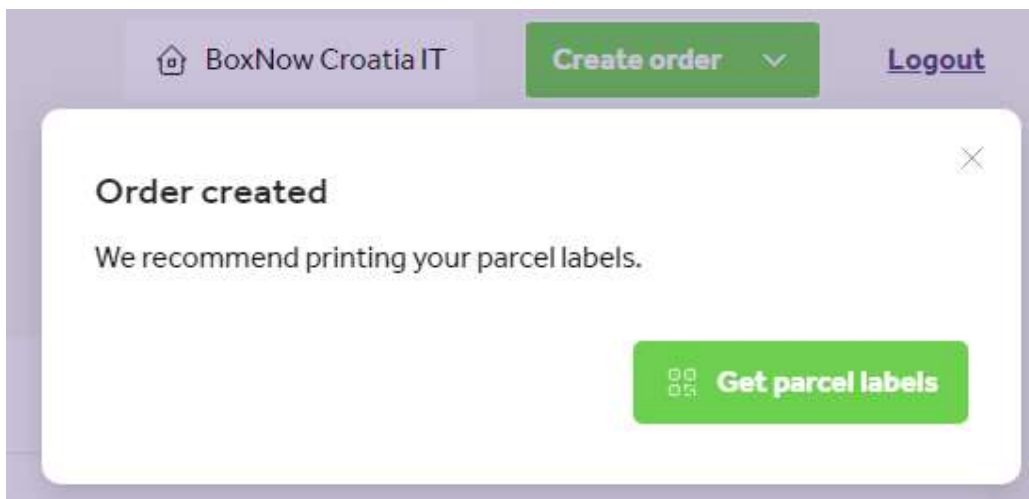

Note

Paketomat se nalazi na parkingu Zagi centra, prvi sat parkiranja je besplatan

Click *Create order* to finish:

Create order

After order creation you can download the shipping label in the prompt in the top right corner by clicking *Get parcel labels*:

A PDF with the shipping label will be provided for you to download, print etc.

Shipping label

Shipping label is provided in PDF format so you can print it to your preference:

		Vrijede Opći uvjeti i pravila pružanja usluga objavljeni na službenoj internetskoj stranici tvrtke www.boxnow.hr i dostupni su u njezinom sjedištu			
WWW.BOXNOW.HR					
Adresnica		Datum izdavanja: čet 02. 03. 23. 15:42			
Pošiljatelj BoxNow Croatia IT [redacted] 11 10000, Zagreb BoxNow IT		Primatelj Ivan Horvat +385912345678 ivan.horvat@mail.com			
Adresa dostave Zagrebačka cesta 194 Zagreb, 10000					
Broj paketa 7440658363 1 Prepaid					
Skladište ZAG		Težina 0.00 kg			
Linija HZAG01		Mjesto 10004/4			
		BOX NOW d.o.o. Ulica Marice Barić 6 Zagreb 10 000 Hrvatska MBS: 081435310 OIB: 02844526916		Kontakt telefon: 01 7000 300 podrska@boxnow.hr	
7440658363					

We recommend printing on A6 size stickers. Please do not use anything smaller. Any format where the QR code and barcode are clear and readable will do fine but if the label is too small to scan the codes BOX NOW will not be able to carry out the pickup.

Create multiple delivery requests by importing CSV

You can import a CSV file formatted in specific way to create multiple orders at once.

To do so in the Partner portal go to *Create order – From Warehouse* and click on the *Switch to CSV* button:

Now on this page you can download an example file in the link:

Example also attached here:

This example will generate 4 orders, where each order is from one line with required data separated by commas.

Note that the first non-empty line in the file will be ignored so keep the explanations in the first line as is.

Data from example file:

	A
1	from_location,destination_location,customer_phone_number,customer_email,customer_full_name
2	1898,1690,+385911234567,name.surname1@gmail.com,Name Surname1
3	1898,1690,+385911234567,name.surname2@gmail.com,Name Surname2
4	1898,1690,+385911234567,name.surname3@gmail.com,Name Surname3
5	1898,1690,+385911234567,name.surname4@gmail.com,Name Surname4

1898 is location_id of partner pickup location (warehouse)

- if partner has only one pickup point this will be fixed for all orders

1690 is location_ID of destination APM (locker)

- in this example this is the one in Vrisnička ulica 8-14, Zagreb, 10000, Croatia

Other data in the lines are customer mobile nr., email, full name

- in that exact order

So in this example line 2 will create order for one parcel:

from warehouse_id=1898

to locker_id=1690

for customer with:

mobile phone number: +385911234567

email: *name.surname1@gmail.com*

full name: *Name Surname1*

Line 3 will create order for one parcel:

from warehouse_id=1898

to locker_id=1690

for customer with:

mobile phone number: +385911234567

email: *name.surname2@gmail.com*

full name: *Name Surname2*

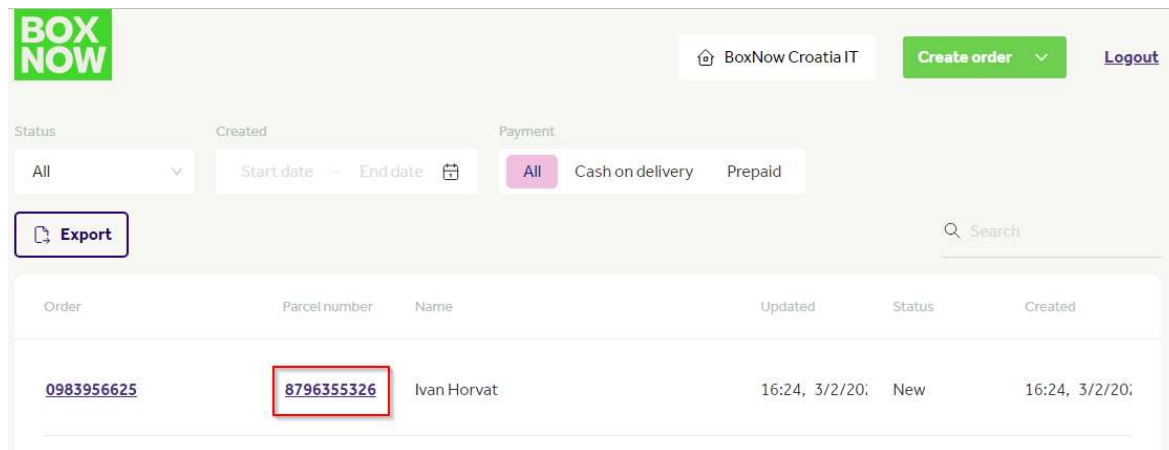

and so on...

Portal will return error in cases with other formats or data structure in the import CSV file and will not create the order requests.

When import is successful the portal will offer download of all parcel shipping labels in one PDF file.

Cancel delivery request

To cancel a delivery request in the portal click on the parcel number in the order list:

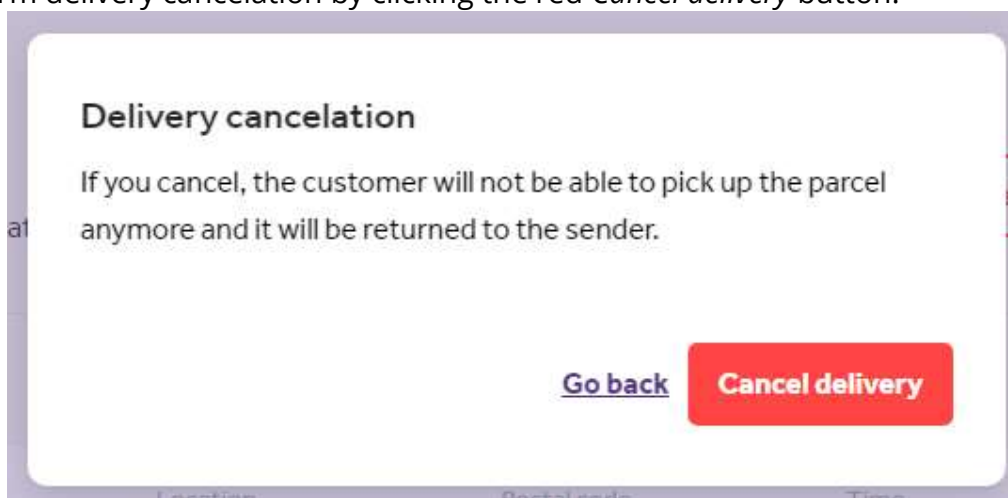

The screenshot shows the BoxNow portal interface. At the top, there's a navigation bar with the BoxNow logo, a user profile 'BoxNow Croatia IT', a 'Create order' button, and a 'Logout' link. Below this is a filter section with tabs for 'Status' (All), 'Created' (Start date, End date), and 'Payment' (All, Cash on delivery, Prepaid). There's also an 'Export' button and a search bar. The main part of the screen is a table with columns: Order, Parcel number, Name, Updated, Status, and Created. The first row shows an order with ID 0983956625, parcel number 8796355326 (highlighted with a red box), name Ivan Horvat, updated at 16:24, 3/2/20, status New, and created at 16:24, 3/2/20.

and click on the *Cancel delivery* button:

confirm delivery cancellation by clicking the red *Cancel delivery* button:

The order status will change to *Canceled*.

Create customer return

To create a customer return in the top right corner click:

Create order – Customer return

In the Address field type in the customer's address so the system can suggest the nearest lockers for the customer to put the returning parcel in:

Address

🔍 Marice Barić 6 ✕

Input your customers details:

Your customer's details

* Full name

Ivan Horvat

* Phone number

+385 912 345 678

* Email

ivan.horvat@mail.com

Select your warehouse where the return parcel should be delivered to:

Delivery address

* Warehouse

loc_id: 1859, BoxNow Croatia IT pic... ▾

BoxNow Croatia IT pickup point

-

Address	Location ID
██████████ 11, Zagreb, 10000, Croatia	1859

Note

-

Create order

Click *Create order* button.

A return order is created and a shipping label is generated.

You need to provide the customer with this shipping label to put on the returning parcel.

The customer will get an SMS with a PIN to open the locker and put the returning parcel inside.

The customer can use any locker for the return with this PIN.
